

Our Donor Pledge

As a 501c3 nonprofit, we understand donations from funders are the lifeblood our organization. Realizing everyone is a prospective funder, the acknowledgement of this pledge extends throughout our organization including all departments and affiliates. All of our employees contribute to the impression we make with funders and the communities we serve.

As such, we have made it part of our organizational DNA to exhibit the highest regard for all funders, existing and prospective. We show this through how we relate to funders, adherence to the highest ethical standards including donor privacy, and through excellence in stewardship, transparency, and accountability.

We value feedback from all funders as it leads to organizational improvement. We believe continuous development of our organization best positions us to achieve our mission.

A handwritten signature in black ink, appearing to read "Melanie Dallas".
